

UNLEASHING

Continuous Innovation, Compliance

Jed Yueh

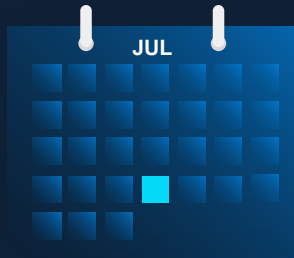

Delphix CEO

TREND 1

Slow to Fast Application Releases

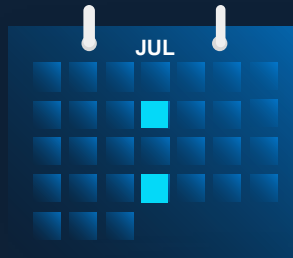

Waterfall

Monthly releases

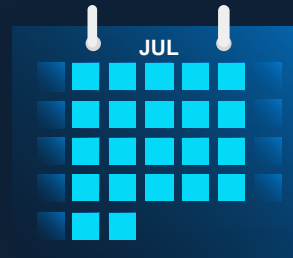

Agile

Biweekly releases

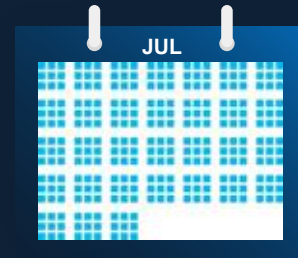

DevOps

Daily releases

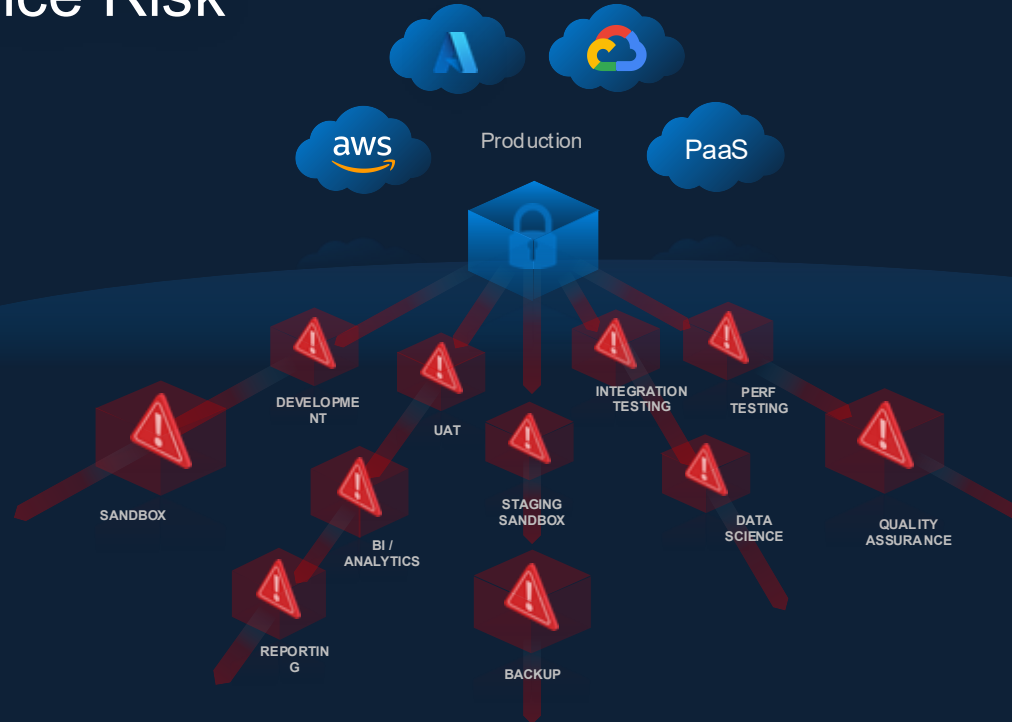

CI/CD

Millions of CI/CD runs per month

TREND 2

Increasing Data Security, Compliance Risk

Cost of Bad Test Data Management

\$350M CCPA Settlement

77M Customer Records Exposed

\$150M Remediation

"The bad actor leveraged their knowledge of technical systems, along with specialized tools and capabilities, to **gain access to our testing environments**."

T-Mobile

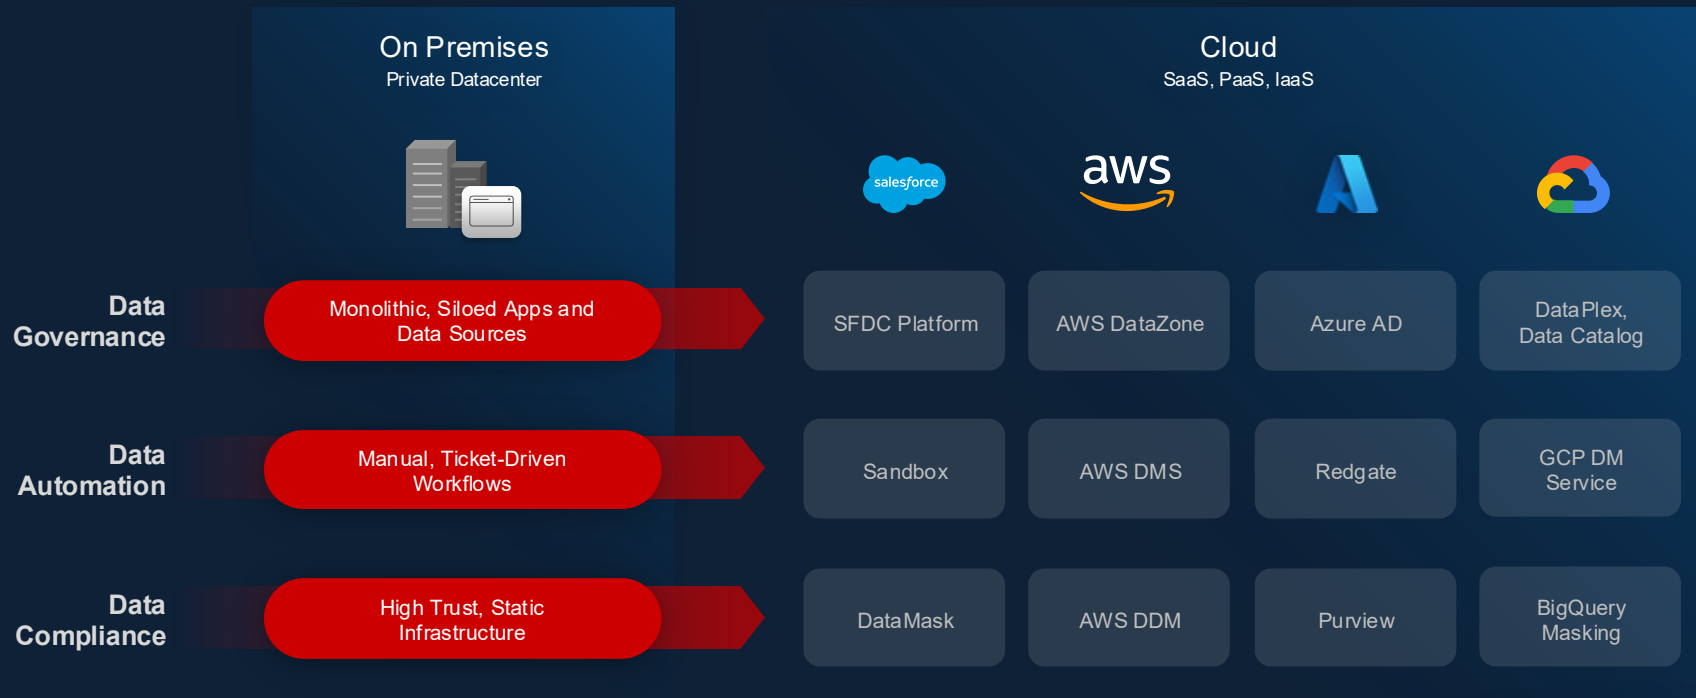

— Mike Sievert, T-Mobile CEO

Application Modernization to Multicloud

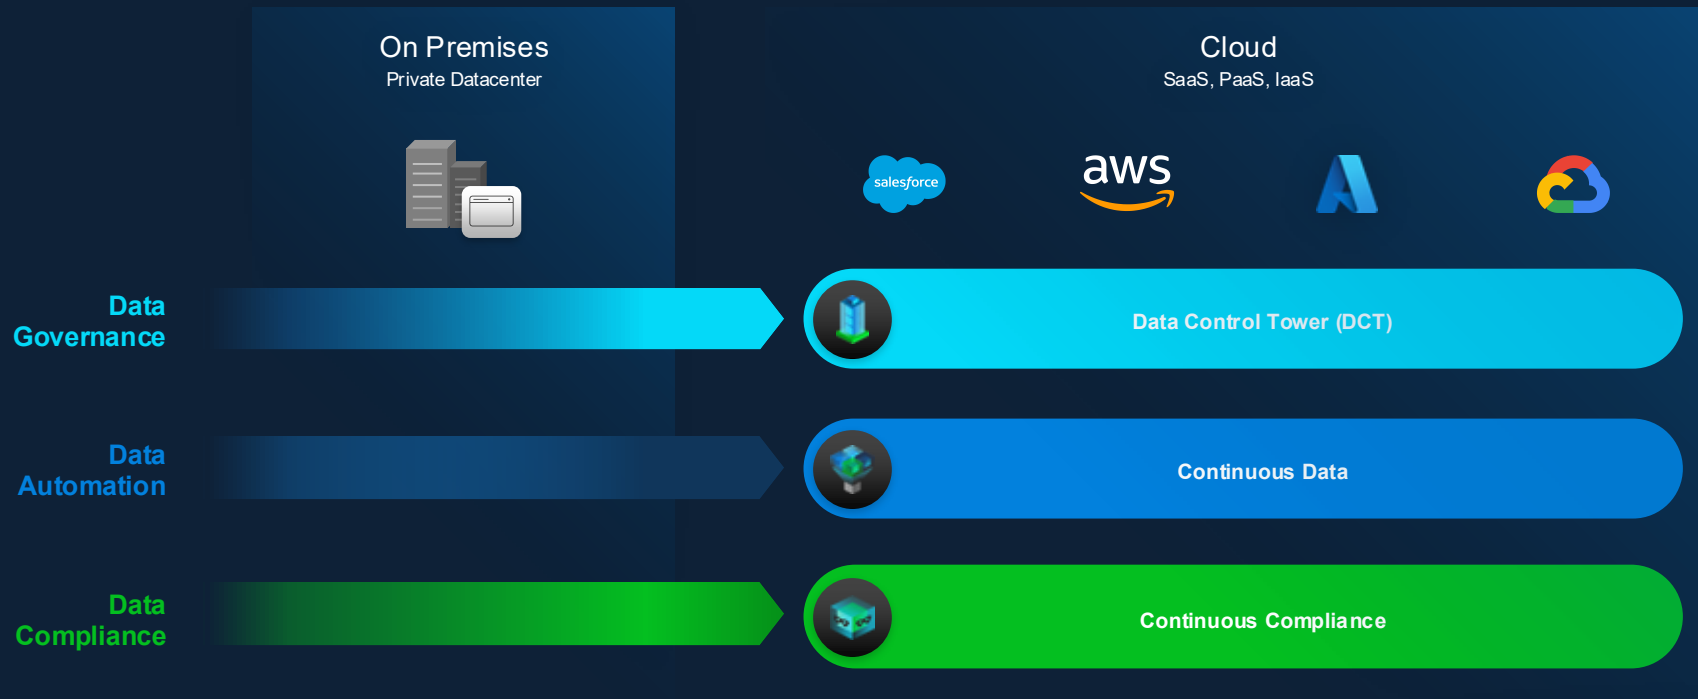

Multicloud Increases Data Complexity, Risk

Clouds offer proprietary point solutions with differing functionality, APIs—lack of consistent controls

Enabling a Multicloud Data Operating Model

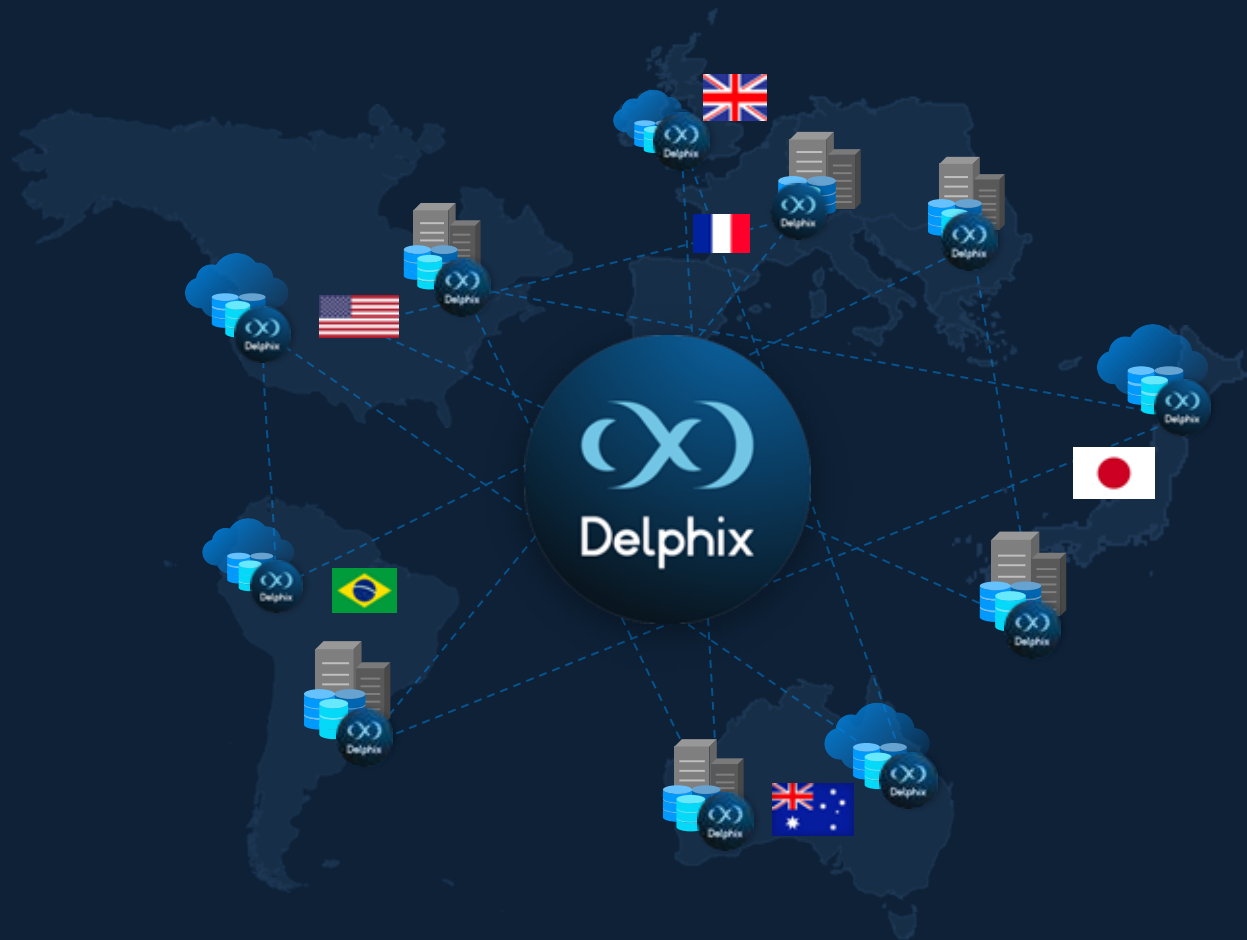

Delphix data mesh unifies data governance, compliance, automation across applications, clouds

DevOps Data Platform

Multicloud Data Governance
For the Application Lifecycle

- **Distributed mesh library:** Sync, version control data in local nodes for residency
- **Automated:** Data APIs for fast, quality test data management and CI/CD
- **Secure, Compliant:** Discover, mask, control data for privacy, regulatory compliance
- **Efficient:** Pays for itself in cost savings

Data Library With Catalog, Tagging, Access Control

DATA LIBRARY

Catalog

Self-Service Access to Multicloud Data+Operations,
Catalog, APIs, Integrations

Database	Action
eCommerce_Customers	Provision
eCommerce_Payments	Refresh
warehouse_Inventory	Teardown
warehouse_catalog	
ERP_logistics	
ERP_Accounts	

Environment
SRE_Environment
Test_Environment
Analytic_Environment

Attribute-based Access Control

Protect Data with Global Attribute-Based
User Access Management

Engineering Team Alpha Central Permission			
Create		Update

Multicloud Data Governance For Application Lifecycles

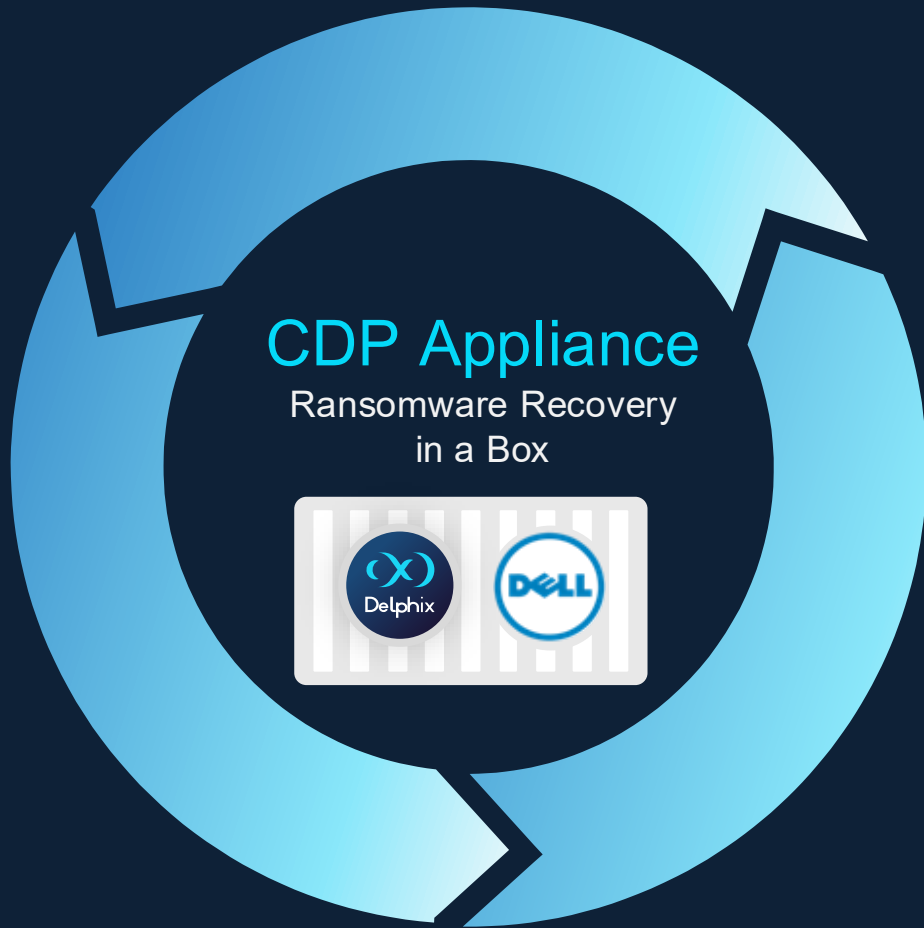

“Data is a big hole in CI/CD pipelines without Delphix. Delphix is like the magic sauce for data.”

Rudy Gonzalez
Managing Director, Unisys

Production Support

Analytics & AI/ML

Unlock Strategic Data Value

- Legacy modernization for claims processing apps
- **2x faster releases to support 3x growth (\$6Bn to \$18Bn)**
- Hybrid cloud migration with new focus on AI

- **JPMC Hall of Innovation Winner**
- CCB: Sped mobile app delivery, improving CX for **\$56Bn consumer line of business**
- AWM: Modernized, consolidated 1000+ apps to < 750

Morgan Stanley

“Data is the life blood of our business, and Delphix has been instrumental in empowering us to use our data faster and more productively.”

Katherine Wetmur
CIO - Cyber, Data, Risk and Resiliency

Delphix Mission

Transforming businesses and the world with
the strategic, sustainable use of data.

Thank You
